

ISO 9001 Quality Policy

The concept of quality is to be understood as a commitment to:

- *Giving our customers a product- and service level, that gives them extra value and differentiates us from the competitors, resulting in a long-term partnership.*
- *Form a creative working environment, which involves and motivates the employees and partners to continuous improvements of products, processes, strategies and utilization of resources.*

miniBOOSTER will maintain a quality management system, which is certified according to the international standard ISO 9001. The system will meet (or surpass) the expectations from miniBOOSTER's partners in all business areas.

miniBOOSTER will continuously improve the efficiency of the system by using systematic methods to prevent and reduce defects. Consequently we involve customers, suppliers and employees in the improvement processes.

All miniBOOSTERs are thoroughly tested before leaving the factory.

miniBOOSTER will make and achieve ambitious goals in all quality aspects, which will give measurable improvements and ensure that our products and services are among the very best on the market.

miniBOOSTER revises the quality policy at least once a year. miniBOOSTER quality policy is known by and is accessible to all employees.
